

e-NP

**ADMIRALTY**  
e-Nautical Publications

The world's leading Nautical Publications available as e-books

**Offering:**

---

86 ADMIRALTY e-Nautical Publications

---

Same familiar look as all ADMIRALTY Nautical Publications

---

Weekly Notices to Mariners added in seconds

---

Easier access to important information the mariner needs

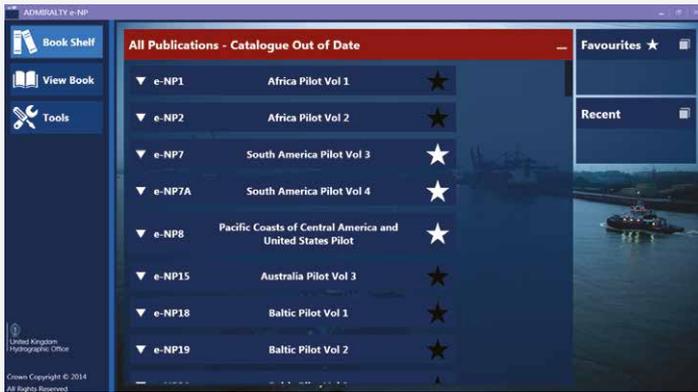

---

Greater confidence and clarity on the bridge

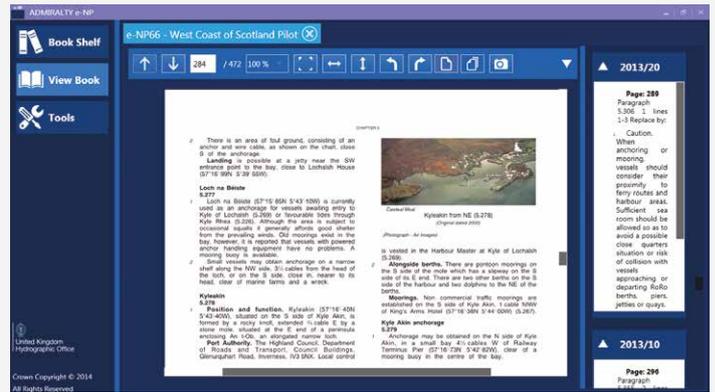

---

United Kingdom  
Hydrographic Office

ADMIRALTY e-Reader holdings page – providing information on the status of each permit.

Sailing Directions e-NP – showing related NMs added on the right of the page.

# e-NPs are official ADMIRALTY Nautical Publications in a more convenient electronic format; bringing improved efficiency, accuracy and access to information bridge crews need

## Carriage compliance

e-NPs contain the same official information as the paper equivalents that have been approved as meeting SOLAS carriage requirements by the Flag States of over three quarters of ships trading internationally.

## Faster NM updates

Bridge crews can download and apply relevant Notices to Mariners (NM) updates in just a few seconds every week, freeing their time to focus on other important duties.

## Aiding passage plans

Bridge crews can save and print e-NP pages and any applicable NMs to include in passage plans.

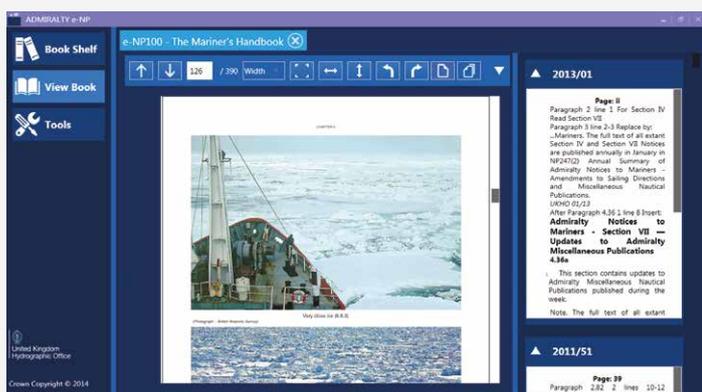

## Easier access to important information

Use the simple search function to access information more easily and quickly than ever.

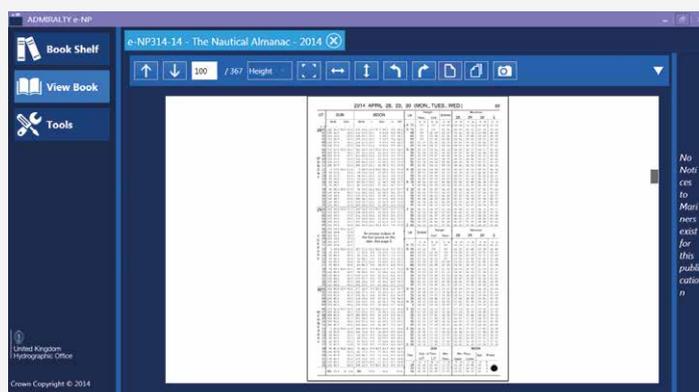

e-NPs can be used on up to three computers on board, per licence.

## Greater confidence and clarity on the bridge

The electronic weekly NM updates are added to the relevant e-NPs with greater accuracy, helping to give decision makers more confidence on the bridge.

**Mariner's Handbook e-NP** – showing different types of sea ice.

**Nautical Almanac e-NP** – displaying one of the daily pages used for gyro-compass checks and celestial navigation.

### Sailing Directions (pilots)

Provide essential information during port entry and coastal navigation, and are suitable for all classes of ships at sea, with worldwide coverage split into 75 volumes.

### Nautical Almanac (e-NP314)

Essential for routine and emergency astronavigation, and the calculation of daylight hours and mandatory gyro checks.

### Guide to the Practical Use of ENC's (e-NP231)

Helping users to safely use ECDIS, this comprehensive reference guide provides detailed understanding of the construction of ENC's, and how this can influence the ECDIS display.

### Guide to ENC Symbols Used in ECDIS (e-NP5012)

Contains comprehensive information, detailed explanations and descriptions of both traditional and simplified ENC symbols displayed in ECDIS. It also explains factors affecting the display of ENC symbols.

### Guide to ECDIS Implementation, Policy and Procedures (e-NP232)

Clear guidance on the efficient integration of ECDIS – helping fleets to meet regulations and remain compliant.

### How to Keep Your ADMIRALTY Products Up-to-Date (e-NP294)

Clear guidance for the efficient upkeep and maintenance of official and compliant ADMIRALTY nautical charts and publications, whether paper or digital.

### Cumulative list of ADMIRALTY Notices to Mariners

Assists users in identifying outstanding NMs and audit trails for particular charts. It is published six-monthly in January (e-NP234A) and in July (e-NP234B).

### The Mariner's Handbook (e-NP100)

The comprehensive guide to seamanship and key aspects of navigation; containing regularly used information on maritime navigation, sea conditions, meteorology and regulations.

### Ocean Passages for the World (e-NP136)

Covers most major routes with distances between main ports and important positions, with details of weather, currents and ice hazards.

### IALA Maritime Buoyage System (e-NP735)

Provides information on the Cardinal and Lateral Buoyage systems, helping mariners worldwide to clearly fix positions and avoid dangers.

### Symbols and Abbreviations Used on ADMIRALTY Paper Charts (e-NP5011)

Gives details on chart symbols and abbreviations used on the worldwide range of ADMIRALTY paper charts, and International (INT) Chart Series paper charts.

It also contains information on hydrography, topography and navigational aids and services.

### Annual Summary of ADMIRALTY Notices to Mariners

Published every January in two parts, with part one containing Annual NMs and re-prints of all ADMIRALTY Temporary and Preliminary Notices which are in force on 1st January (e-NP247(1)).

Part two lists the current editions of all volumes of Sailing Directions and amendments which have been published in the weekly editions of ADMIRALTY NMs and are in force on 1st January (e-NP247(2)).

# A range of world-leading, official ADMIRALTY Nautical Publications in an easy-to-use, electronic format

The image shows a screenshot of the ADMIRALTY e-Reader application. The main window displays a page from 'e-NP100 - The Mariner's Handbook'. The page content includes sections for 'NMs have been published for this page', 'Definition', 'Performance standards', and 'Settings and alarms'. A 'Snapshot' window is overlaid on the right side, showing a preview of the page with a 'Save' button and a 'Print' button. Below the main window, there is a '2011/51 e-NP100 - NMs - Wells Tankers' section with a 'Page 39' indicator and a paragraph of text starting with 'Paragraph 2.82 2 lines 10-12 Replace by: ...implications.'.

**e-Reader snap shot function** – showing page 39 of e-NP100 with the NMs applicable to that page. Using the snap shot function you can save and print relevant pages for passage plans.
