

Voyager GLOBAL FLEET

The ultimate data insight tool for shipping companies

- Identify new business opportunities
- Win more business with more accurate, data-led pricing
- Improve customer onboarding and after-sales service
- Increase focus and get better results

Fully searchable global database of 120k+ vessels, owners, operators and managers to enhance sales, marketing, customer experience and offer more personalised service.

Extensive data content Hourly position data, Flag and Class data, trading histories, destination ports and sea time plus full compliance and ownership history viewed geographically and as list views.

Unlimited searching and filtering using over 100 different search criteria.

Define your own lists of vessels based on your own criteria, save, share and re-use searches as required and access data in list-view and spatially on a map.

Export at the click of a button for further analysis and use in your own in-house systems.

Customise Voyager GLOBAL FLEET by adding your proprietary data sets such as relationship history, equipment installed and installation and servicing dates for your private, exclusive use.

GNS

Until now, it's been hard to get access to the data needed to optimise commercial shipping activities effectively. Voyager GLOBAL FLEET service changes all that.

With Voyager GLOBAL FLEET for the first time, you can now access a rich, continuously updated maritime database to help improve sales targeting and performance, increase operational efficiencies, improve customer understanding and enhance customer care.

5 WAYS Voyager GLOBAL FLEET CAN HELP YOUR BUSINESS

- ✓ Access vessel, ownership, trading and inspection histories to inform vessel chartering decisions
- ✓ Use vessel histories to assist with preparation of more accurate technical management proposals and pricing
- ✓ Enhance new vessel onboarding processes and preparations
- ✓ Identify competitive tonnage capable of meeting charterer requirements to inform your own pricing decisions
- ✓ Use ownership, vessel characteristics, compliance records and sailing area data to more accurately identify and target new business opportunities

More than 1.4 billion data points in Voyager GLOBAL FLEET provide a detailed view of every IMO registered vessel in the world over a rolling 3-year period. Information can be easily searched, filtered, manipulated, viewed and exported to meet business requirements based on over 100 search criteria including:
