Voyager VOICE

Providing shipping companies with big savings on shore to ship voice calls.

GNS has partnered with FrontM to offer our customers a cost-effective and reliable shore to ship voice calling service. The new service brings together GNS's extensive maritime experience and FrontM's Voice Over Internet Protocol technology.

Save up to 40% on shore to ship voice calls to bridge satellite numbers with a flat-rate cost of just \$3.60 per minute.

A simple, cost-effective and transparent way to enable shore-based personnel to connect and collaborate with vessel-based teams.

Mobile and desk based Office-based users can call vessels from their desk using the Voyager VOICE web site or on-the-go from a smartphone app.

Comprehensive vessel 'telephone directory' enable users to quickly find the right number to call. Easy and efficient.
